*The People of the State of Michigan enact:*

Sec. 2835. (1) As used in this section and section 2837:

(a) "Abortion" means that term as defined in section 17015.

(b) "Physical complication" means a physical condition occurring during or after an abortion that, under generally accepted standards of medical practice, requires medical attention. Physical complication includes, but is not limited to, infection, hemorrhage, cervical laceration, or perforation of the uterus.

(2) A physician who performs an abortion shall report the performance of that procedure to the department on forms prescribed and provided by the department. A physician shall transmit a report required under this subsection to the director within 7 days after the performance of the abortion.

(3) Each report of an abortion required under subsection (2) shall contain only the following information and no other information:

(a) The age of the woman at the time of the abortion.

(b) The marital status of the woman at the time of the abortion.

(c) The city or township, county, and state in which the woman resided at the time of the abortion.

(d) The location and type of facility in which the abortion was performed.

(e) The source of referral to the physician performing the abortion.

(f) The number of previous pregnancies carried to term.

(g) The number of previous pregnancies ending in spontaneous abortion.

(h) The number of previous pregnancies terminated by abortion.

(i) The method used before the abortion to confirm the pregnancy, the period of gestation in weeks of the present pregnancy, and the first day of the last menstrual period.

(j) The method used to perform the abortion.

(k) The weight of the embryo or fetus, if determinable.

(l) Whether the fetus showed evidence of life when separated, expelled, or removed from the woman.

(m) The date of performance of the abortion.

(p) The physician's signature and his or her state license number.

(4) The report required under subsection (2) shall not contain the name of the woman, common identifiers such as her social security number or motor vehicle operator's license number or other information or identifiers that would make it possible to identify in any manner or under any circumstances an individual who has obtained or seeks to obtain an abortion. A state agency shall not compare data in an electronic or other information system file with data in another electronic or other information system that would result in identifying in any manner or under any circumstances an individual obtaining or seeking to obtain an abortion. Statistical information that may reveal the identity of a woman obtaining or seeking to obtain an abortion shall not be maintained.

(5) The department shall destroy each individual report required by this section and each copy of the report after retaining the report for 5 years after the date the report is received.

(6) The department shall make available annually in aggregate a statistical report summarizing the information submitted in each individual report required by this section. The department shall specifically summarize aggregate data regarding all of the following in the annual statistical report:
