SPECIAL GUEST SPEAKER

Gianna Jessen

Abortion Survivor, Pro-life Speaker

Gianna Jessen was intended to die before she was born, just another one of the nearly 1 million abortions each year in the United States. Gianna was bathed in a burning saline solution, but she overcame to enter the world. Two months premature and weighing just 2.5 pounds, she spent her first couple of months in a hospital. The failed abortion had also provided the "gift" of cerebral palsy, as she calls it: "It allows me to really depend on Jesus for everything." Gianna was labeled a hopeless case and doctors predicted she would never even lift her head. She showed them: she began walking at age three and has grown into a woman who has run marathons. Her goal is to live the impossible since nothing is impossible for God.
